	Deepen and extend Windy Ridge Quarry; increase the number of HGV movements permitted; excavate former landfill to recover recyclable materials (retrospective); temporarily store soils on part of the previously restored quarry area (retrospective); form new			Oppose. HVPC commented previously on a similar application from the same applicant (2022/93230) in December 2022 and the concerns raised by the committee regarding noncompliance of existing planning conditions, highways safety, nuisance noise and potential impact on water courses remain the same.  The parish council oppose this expansion of the quarry due to concerns raised by residents that the quarry is currently exceeding the permitted vehicle movements for the site (causing excess noise and damage to the highway). This application in-part appears to be a retrospective application for works already taking place at the requested level.  As the access to this site from the south side is via Linshaws Road and White Gate Road and is in very close proximity to the Barnsley MBC border it is suggested that Barnsley MBC Highways should be added to the list of consultees on HGV traffic matters.  On balance it is the opinion of the parish council that the adverse effects of this application would outweigh the benefits of local employment and commerce in this case. Given the number of public representations concerning exceeding current vehicle movements and work outside of permitted hours, HVPC recommend that the continuation of existing permits and operations for this quarry should be subject to the effective
2022/52/02440/54	recycle imported construction demolition and excavation	Road, Cartworth Moor, Holmfirth,	http://www.kirklees.gov.uk/beta/planning- applications/search-for-planning-	operating via some of the same access routes for HGVs and together these would amount to serious damage of the

2023/62/93460/W	Erection of raised terrace	10, Acre Lane, Holmbridge, Holmfirth, HD9 2PN	http://www.kirklees.gov.uk/beta/planning- applications/search-for-planning- applications/detail.aspx?id=2023/93460	Support
2023/62/93467/W	Erection of single storey ground extension	10, Westcroft Fold, Honley, Holmfirth, HD9 6FH	http://www.kirklees.gov.uk/beta/planning- applications/search-for-planning- applications/detail.aspx?id=2023/93467	Support
2023/70/93494/W	Variation condition 1 (plans and specifications), 2 (materials) on previous permission 2023/90714 for reserved matters application pursuant to outline permission 2020/91146 for erection of residential development of 35 dwellings	Land off, Wesley Avenue, Netherthong, Holmfirth, HD9 3UL	http://www.kirklees.gov.uk/beta/planning- applications/search-for-planning- applications/detail.aspx?id=2023/93494	Oppose - Materials should remain the same, this appears to be a cost cutting excerise and will result in a lower quality build.

		Land adj, Fern Bank, Far End Lane,	http://www.kirklees.gov.uk/beta/planning-	Oppose. HVPC commented on this application in March 2023: "Object. The climate mitigation statement was poor. There was no ecological assessment and there would be an impact on the Kirklees wildlife habitat network. There was a lack of provision of a footway. Access to the site was blind. The proposed development did not harmonise with the local built environment. Overlooking was a concern and there was a potential loss of light."  These comments still apply and the parish council maintains their original objection to this application which has done little to address previous concerns. With the changes to the application and representations from residents HVPC would also like to add the following comments:  There is concern for the potential for daylight issues due to the height of the proposed development that will affect the property on Woodhead Road below. The potential for loss of light should be subject to a BRE Daylight & Sunlight report carried out independently of the designer's assessment.  There are significant differences to the original outline on highways that have raised concerns for visibility and sightlines on the access/egress points as well as the loss of the footpath, which was deemed a reason for refusal in the past for this site.  There remains a lack of a valid ecological assessment for the site. The survey carried out on 30 January 2023 does not cover the correct plot of land as the survey area boundaries and the development plot boundaries differ. The need for this is heightened by the additional driveway space in the revised plan, which will contribute to further to biodiversity loss. No change has been made to the climate change statement.  There is concern for the steep incline of the plot and the stability of the landscape within the area due to the lack of the 2m easement strip required by Highways Structures.
